**Piotr Ordon**

**Type of tutoring:**

scientific and developmental

**Language of tutoring:**

Polish, English

**E-mail:** [piotr.ordon@upwr.edu.pl](mailto:piotr.ordon@upwr.edu.pl)

Let me invite you to the new world of quantum chemistry. I am quite experienced theoretical chemist: a physicist with PhD in theoretical chemistry. I do specialize in applying quantum mechanics in theoretical description of chemical reactions. Chemical reactions are fundamental processes and every researcher who deals with natural sciences needs to be very familiar with.

I can help understanding what is going on within the world of atoms and molecules: interactions of light and matter forming new molecules.
